

Where to get him from?

You can track him down at the VS Code Marketplace or swing by our website linked to the QR code below for an encounter!

How did he get his name?

GenAI Test Bot, a.k.a. GAIB, the brainy bot on the block!

How to use him?

- Swing by the website to sign up and snag the extension!
- Dive into the README guide in the extension for tips on how to navigate.
- Polish up your code step by step with feedback like a pro!

**COVERAGE SCORES,
ACCURACY REPORTS
AND MORE!**

Who are his parents?

GAIB is the only person ever to have five parents:
Bahar Abbasi Delvand, Krishika Mirpuri, Lawrence Gu, Nathan Peereboom, Neha Asthana

How can he help you?

He's your trusty sidekick in the land of coding chaos! Meet GAIB, the automated test buddy tailor-made for your VSCode adventures. Just connect your GitHub to unlock a world of test case magic, accuracy reports, and coverage insights, all served with a sprinkle of GPT service wizardry. Let GAIB be your coding genie and watch the testing wonders unfold!

What does he do?

- seamlessly weaves into a developer's daily grind within a VSCode playground
- conjures up test scenarios for Python scripts with a sprinkle of GPT magic
- executes tests, serving up precision and scope reports
- connects your GitHub hub to your workspace
- fetches the freshest commit details from your repository
- crafts test cases and verdicts inspired by commit insights
